Login to HostGator.com Control Panel

- 1) Type in 'file' to filter the list of icons
- 2) Double-click on the 'File Manager' icon

Specify The Initial Directory To Open

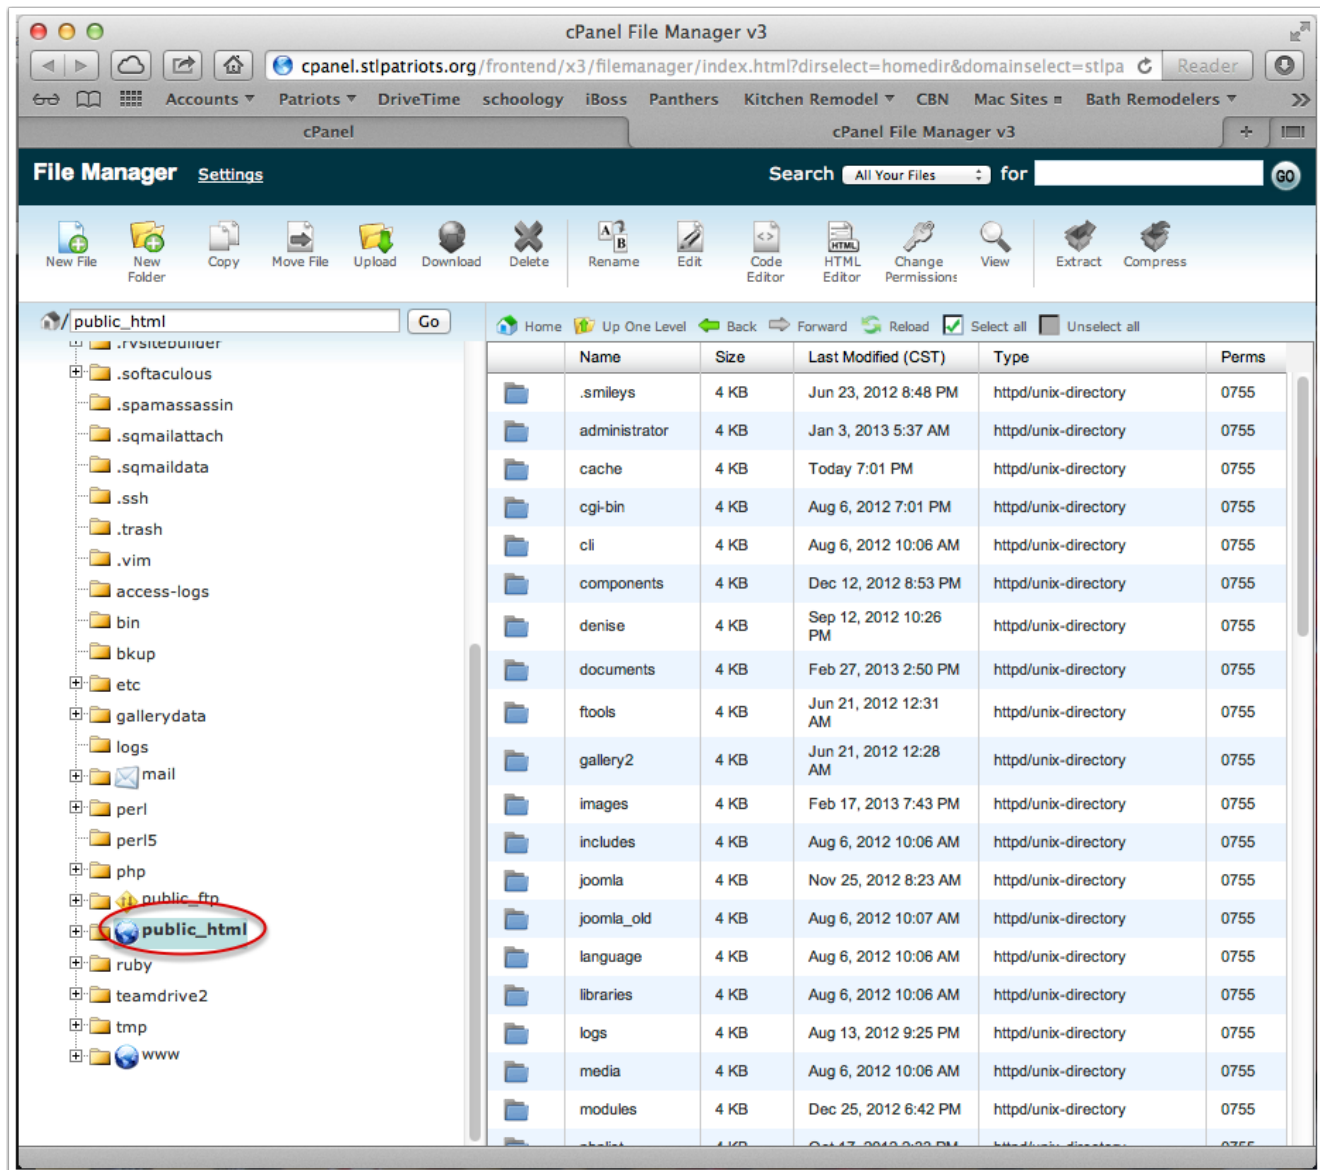

Click on 'Go' to continue.

The screenshot shows a window titled "File Manager Directory Selection". Inside, the title "File Manager Directory Selection" is at the top left, and a yellow folder icon is at the top right. Below the title, it says "Please select a directory to open:". There are four radio button options: "Home Directory" (selected), "Web Root (public_html/www)", "Public FTP Root (public_ftp)", and "Document Root for:". The "Document Root for:" option has a text input field containing "stlpatriots.org". Below these options, there are two checkboxes: "Show Hidden Files (dotfiles)." which is checked, and "Skip this question, and always open this directory in the future when opening File Manager." which is unchecked. At the bottom center, there is a "Go" button, which is circled in red.

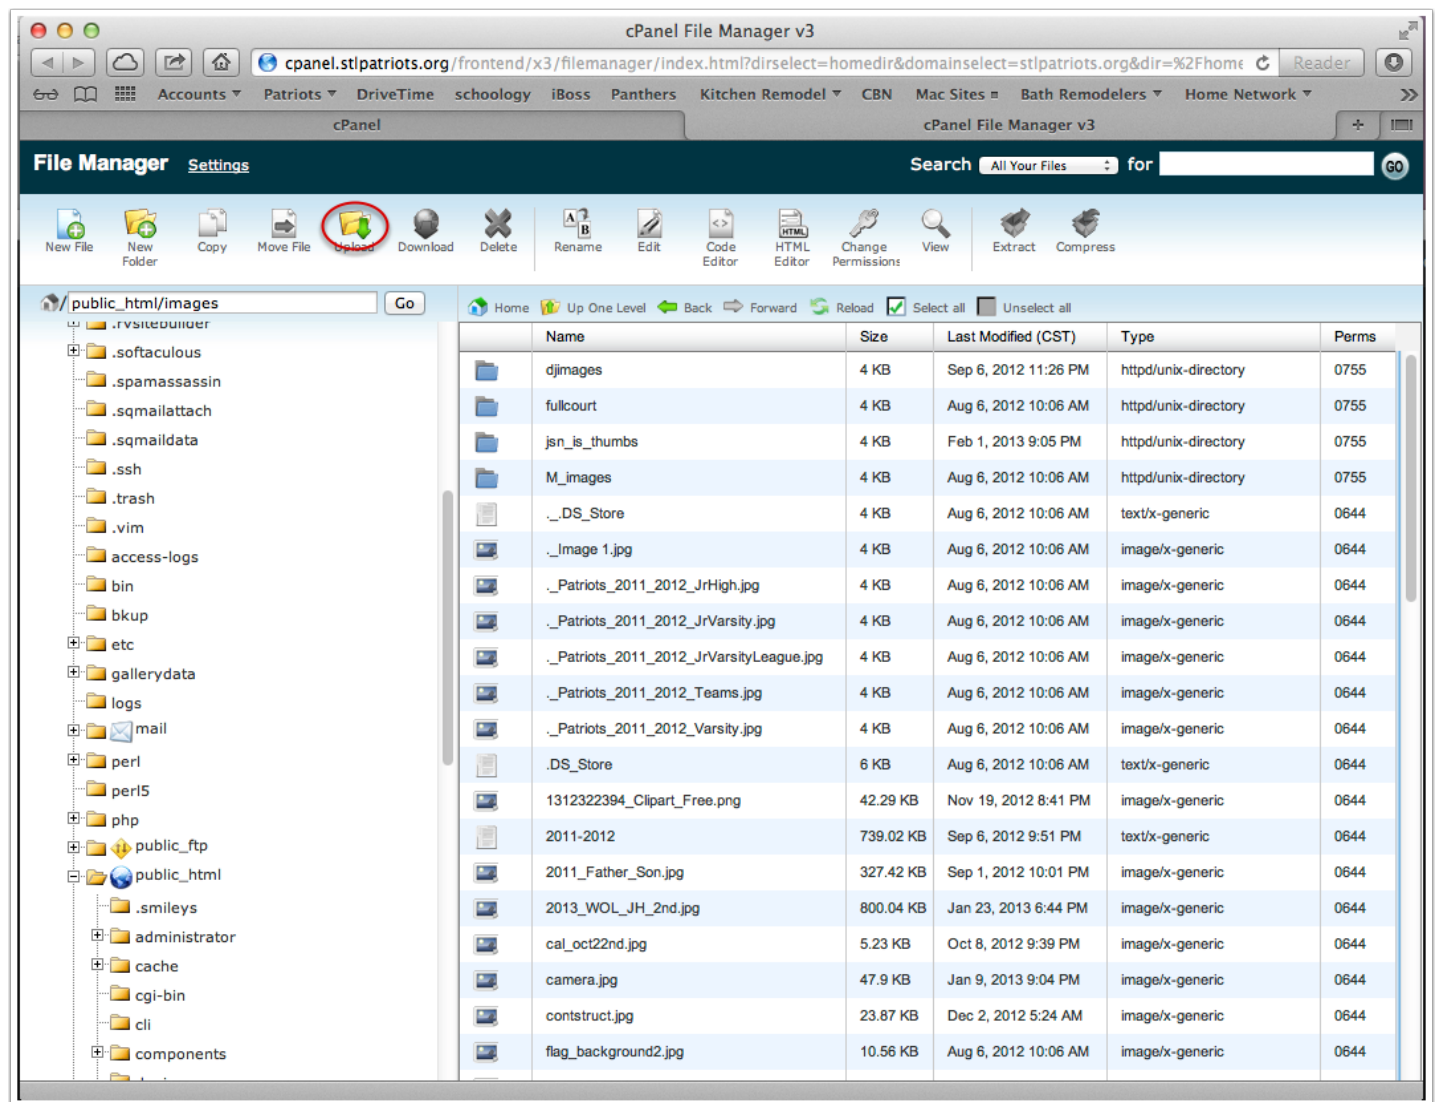

Open the public_html folder

Double click on the 'public_html' folder name

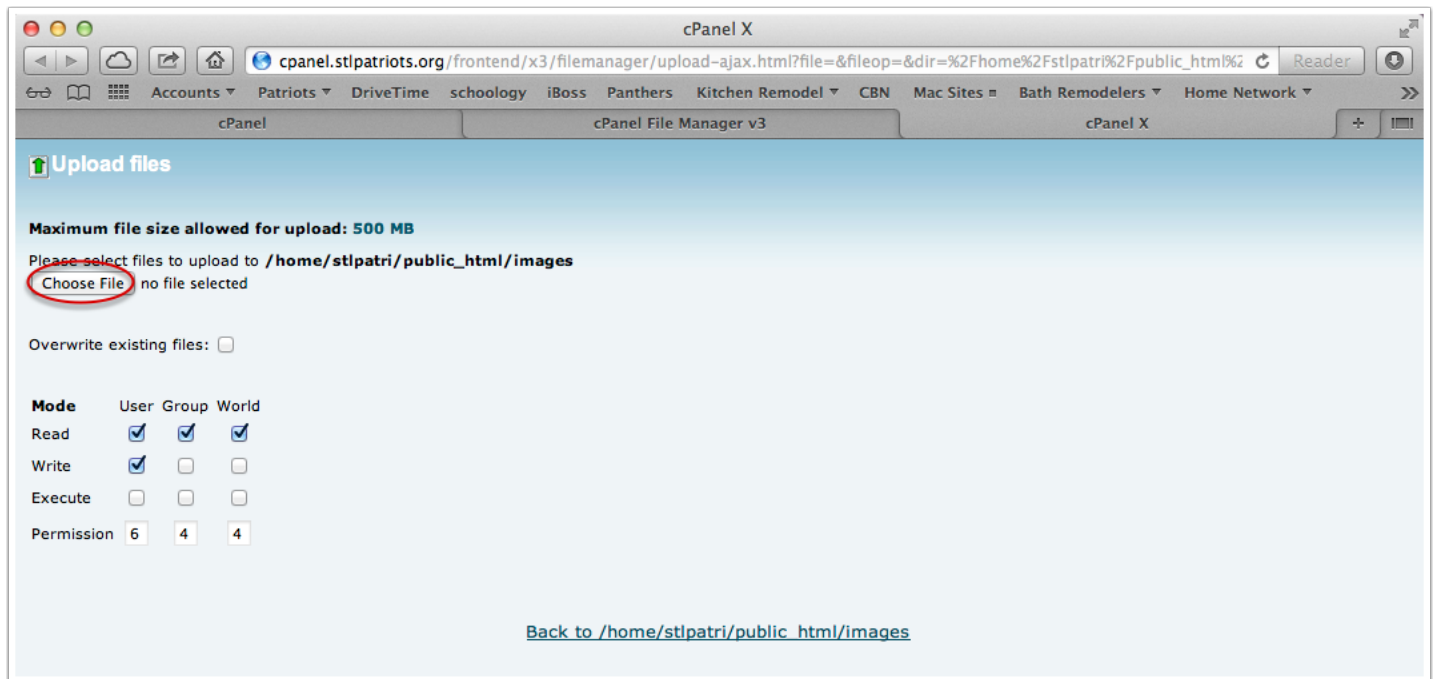

Upload Icon

Click on the 'Upload' icon....

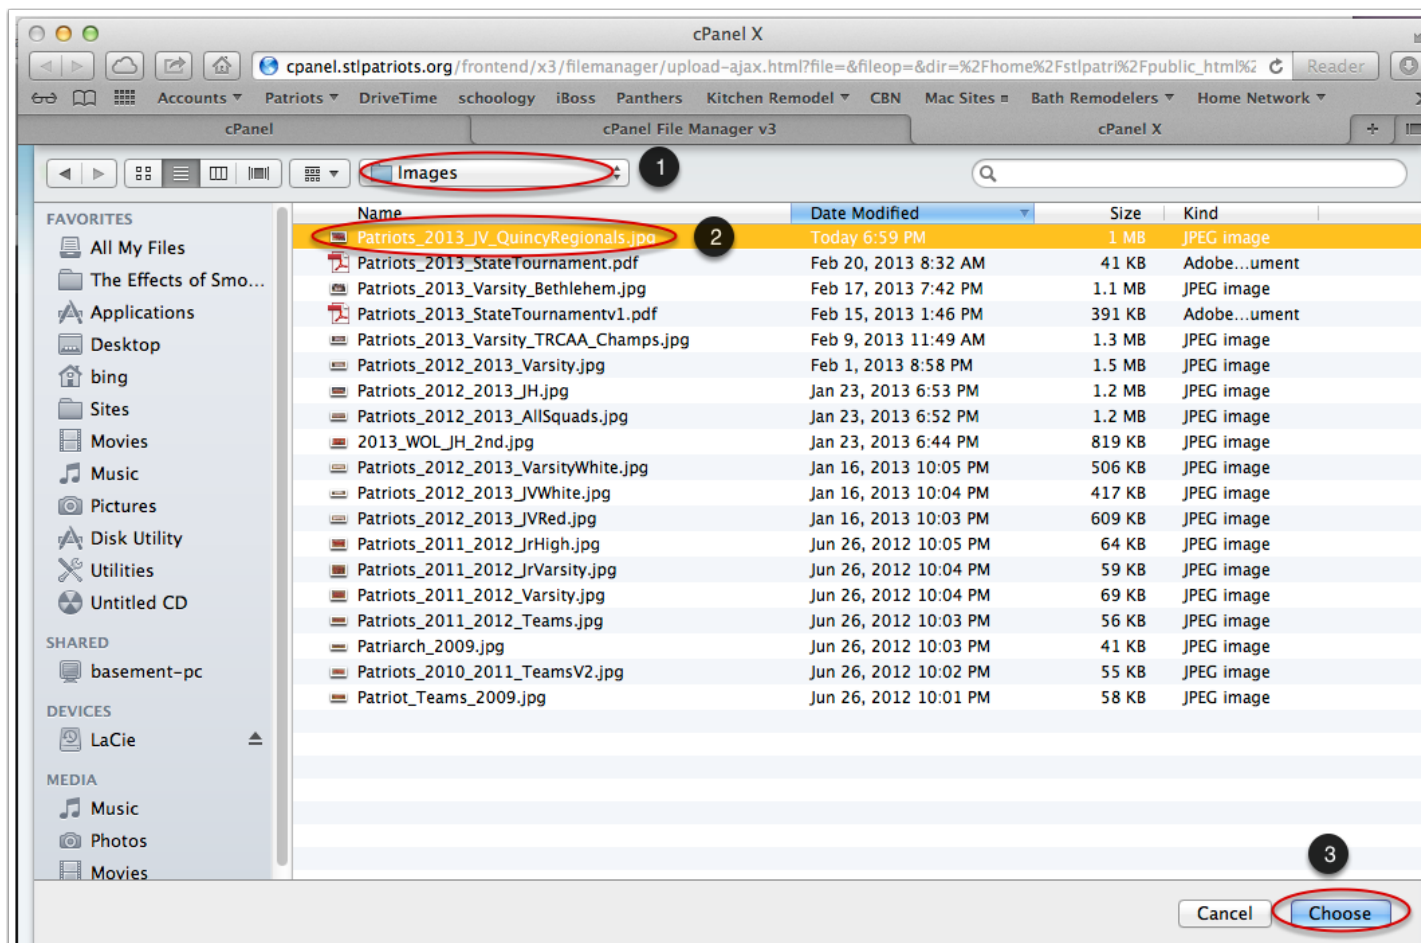

Designate You Want To Upload a File

Click on 'Choose File'

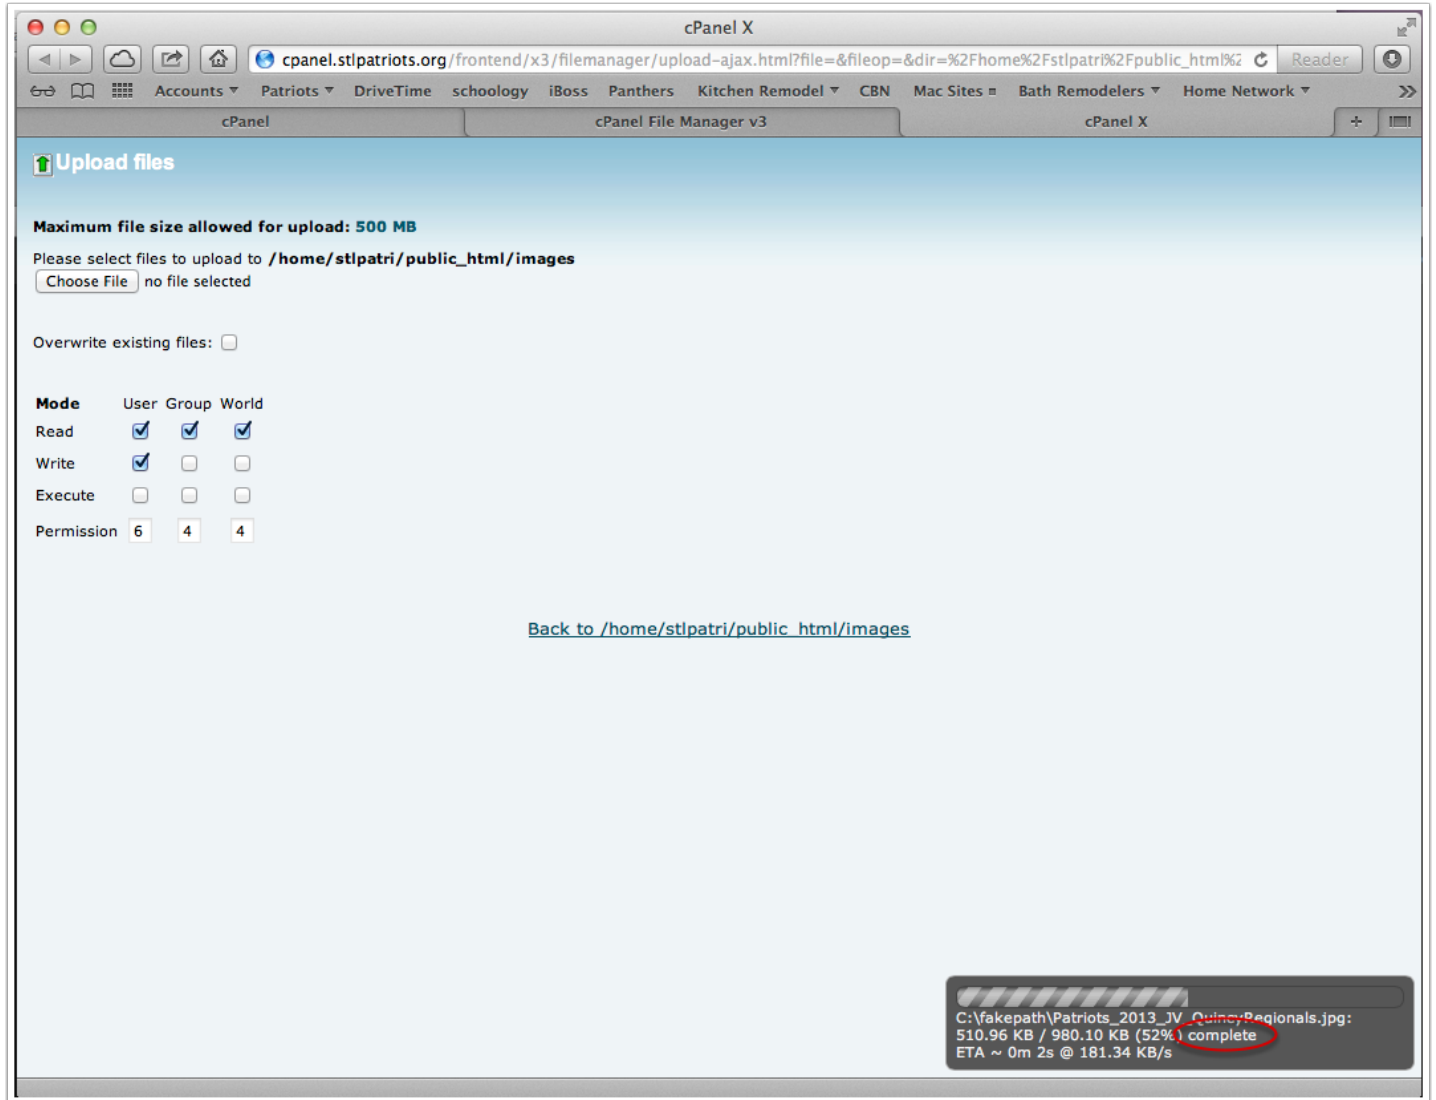

Select Upload File / Start Upload

- 1) Select the folder containing the image file you wish to upload
- 2) Highlight the image file
- 3) Click the 'Choose' button to start the upload.

Upload Complete

A progress 'box' will appear in the lower right hand corner. Wait until you see the word 'complete' in the box.

Check For The File

- 1) Click on the 'cPanel File Manager v3' tab
